

Hot Ink Roll

固体墨轮

FEATURES 特点

Use for ink roll coding machines to print production date, batch No and other related information on such materials as plastic film, paper, etc. With the characteristics of easy-to-use and non-toxic, the ink roll is able to produce at high speed with instant dry and highly legible printing that has a good adhesion for a longer usage life.

固体墨轮配套于墨轮机使用，用于塑料薄膜纸质材料等表面印制生产日期、批号等标识。具有使用方便，字迹清晰，不易脱、快干、无溶剂污染，打印次数多等优点。与墨轮机配合可实现快速印字。

Model No 品种	Description 属性	Temp. Range 使用温度	Features 特性	Color 颜色
DK833	Hot Ink Roll (high temperature) 高温墨盒	135~155°C	Oil-resistance, cold-resistance, long printing life, good adhesion, etc 耐油性, 抗冷冻 次数多等特点	Black, white, red, blue, yellow 黑白红兰黄
DK831	Hot Ink Roll (medium temperature) 中温墨盒	100~140°C	instant dry, no sticky, good adhesion, etc 快干性好, 打印后不背粘, 耐擦	Black, white, red, blue, yellow 黑白红兰黄
DK818	Hot Ink Roll (low temperature) 低温墨盒	90~130°C	long printing life, dark prints, etc 打印次数多, 字迹黑	Black, white, red, blue, yellow 黑白红兰黄
DK816	Hot Ink Roll (low temperature) 低温墨盒	90~130°C	dark prints, instant dry, etc 字迹黑, 快干	Black, white, red, blue, yellow 黑白红兰黄

常用规格 Standard Dimensions (mm): 36*10 36*16 36*32 36*35 36*40 36*45 40*40

FEATURES 特点

Used on hot Stamp coder to print production date, batch No., etc on such packages and labels as plastic film, paper and others. With excellent characteristics as good adhesion, legible and clear legend printing, hard-to-remove, the foil is non-toxic without any pollution of solvent.

基本类型：三种

腊基色带——特点：粘性好/持久性低/成本低（性价比高，使用面最广）

混合色带——特点：性能与价格介于腊基与树脂基之间

树脂基色带——特点：粘性差/持久性高/成本更高（打码效果较好，适用于附着力量要求高的场合）

Hot Stamp Foil

热打印色带

Series No. 产品代号	Temp. Range 温度范围	Dimensions 规格	Colour 颜色种类
DK-TPX	90~150°C	25mm×100mm 30mm×100mm	Black, White, Red, Blue, Yellow, etc. 黑、白、红、蓝、黄等
DK-SCF	110~160°C	25mm×100mm 30mm×100mm	

Remark: Can be custom-built according to the customers' requirements.

注：可按用户使用要求，制定特殊规格。
